Interests

AI Systems (NLP/LLMs), Linguistic Intelligence, Machine Learning, and Open-source AI

Education

BSc in Computer Science - AI (Exp. Grad '27) | CGPA: 3.9/4.0

Sep 2023 – Present

McGill University, Montreal

- Awards: Tomlinson Undergraduate Award (x3), McGill French Immersion Award @Université Laval (x2)

Research Internship

Study of LLM Bias on French dialects (NLP Evaluation + Responsible AI)

Mar 2026 - Aug 2026

Mitacs Accelerate - Armilla AI | Supervised by Prof. Jackie Cheung

- Develop a taxonomy of potential harms from dialect-based biases
- Design evaluation metrics and benchmarks aligned with the harm taxonomy
- Preprocess and standardize datasets for LLM evaluation and prompting
- Evaluate multiple LLMs' behavior via API calls and local inference using dialect-specific prompts
- Compute and analyze comparative bias metrics across dialects

Projects

Visual Search App (CV model + Training)

Fall 2025

MAIS Hacks 25–26

- Fine-tuned a pretrained **YOLOv8n** model to perform custom object detection
- Built and annotated a 100+ image dataset, integrated **Roboflow** for data management and model training

VPN-prototype - Second Prize (Cloud Computing + OS)

Summer 2025

SOC Summer Workshop, National University of Singapore

- Built a VPN prototype service using **Kubernetes** with a team
- Deployed the VPN service on **AWS**, leveraging Kubernetes for **container** orchestration and cloud networking

Teaching Experience

Instructional Assistant & Mentor - McGill University

- **Accessibility Tutor** (Mar 2025 - Present): Deliver individualized 1-on-1 support through the Student Accessibility & Achievement program to reinforce core course concepts.
- **TEAM Mentor (CS)** (Sep 2024-Dec 2025): Guided students in **Algorithms** and **Intro to CS**; managed Ed Discussion boards and led study groups for 15+ students weekly.
- **Undergraduate Course Assistant** (Sep 2024-Apr 2026): Graded assignments and provided instructional support for **Linear Algebra** and **Statistics** courses.

Extracurricular Experience

President ← Co President ← VP Media & VP Finance ← VP Art

Sep 2023 - Present

McGill Students Chinese Brush Arts Club, Students' Society of McGill University

- Communicate across different clubs for event planning
- Manage sales and activities for traditional festivals
- Manage the club budget for operational costs and events

Hackathons & Code-contests Experiences

- MAIS Hacks (2025), NP-Complete-NAQ (2025), CodeJam14 (2024), BSRM x ALDO Retail Gen Ai Hackathon Finalist (2024), Hack McWiCS (2024)

Technologies

Technical Languages: Python, Java, C, C++, Bash, SQL, Cypher, OCaml, MIPS Assembly

Tools: Conda, Git, Docker, Kubernetes, AWS, PyTorch, Numpy

Natural Languages: English (Fluent), Mandarin (Native), French (A2; B1 in Progress)
